

LMC Decisions 2023/24 Season

The following decisions were made by the LMC this year,

Advance permission was given for a Gambit player to transfer clubs to Beeston later in the season. Ultimately, this transfer never took place.

Grantham 3 were given permission to swap board colours on their home and away fixtures if they received the agreement of their opposing captain. This was to allow juniors who only played home games to play with both black and white.

Thomas Trimble was given permission to play for Beeston at the start of the season and then transfer to University

Nomads were given permission for one player not to record moves due to a medical impediment

Grantham 3 had the penalty points and fine for a default waived as the late cancellation was considered an honest mix up with dates.

The LMC ruled that two late additions to the West Bridgford 1 team were bona fide members of the club.

The penalty for a board order violation by University 1 was reduced on appeal.
